## SUMMARY

Passionate Software Engineer with experience in full-stack web development and backend engineering. Strong proficiency in Java, Python and modern web technologies. Adept at building scalable, high-performance applications, solving complex problems, and collaborating with cross-functional teams.

## EDUCATION

B.E in Computer Science & Engineering

[SJC Institute of Technology ], [Chickballapura , Karanataka] - 6.2/10

2017 – 2023

## TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript, TypeScript ,EJS
- **Frontend Technologies:** React.js, HTML, CSS, Vue.js, Angular, Bootstrap, TailWind
- **Backend & Databases:** Node.js, Express.js, MongoDB, MySQL, PostgreSQL
- **Cloud & DevOps:** AWS, Docker, Jenkins, Travis CI, GitHub Actions
- **Tools & Platforms:** Git, Postman, Vercel, GitHub, Jenkins, CI/CD Pipelines
- **Software Development:** RESTful APIs, Microservices Architecture, System Design
- **Problem Solving:** Strong foundation in Data Structures, Algorithms (LeetCode 100+ problems solved)

## INTERNSHIP

Software Developer Intern

Technologies Global Pvt Ltd | (3 Month)

2022

- Developed and optimized data-driven applications using Python, Pandas, SQL
- Built and deployed RESTful APIs for efficient data exchange between services
- Applied machine learning techniques for data analysis and visualization

## PROJECTS

1. Secrets Anonymous– 🔗 Link: <https://secrets-ochre.vercel.app/>

- Developed a secure secrets-sharing web app with Google OAuth & session-based authentication using Node.js, Express, MongoDB, and Passport.js.
- Enabled users to anonymously post, edit, or delete secrets, and interact via like/dislike and comment features.
- Integrated EJS templating for dynamic views and applied Mongoose for structured user/secret/like schema relationships.
- Implemented access control, route protection, and real-time UI updates with minimal refresh.

2. Car Marketplace – 🔗Link: <https://car-marketplace-web-app-seven.vercel.app/>

- Full Stack App: Developed using React, Tailwind CSS, Express.js, and PostgreSQL (Drizzle ORM).
- Enabled car listings with Cloudinary image uploads, feature tagging (jsonb), and full CRUD support.
- Implemented user authentication, secure delete with cleanup, and dynamic edit mode with re-uploads.
- Integrated a secure messaging feature allowing users to query sellers directly for more car details.
- Improved user engagement by 80% with responsive design, intuitive UX, and real-time dashboard updates.

3. Music Player Web Application – 🔗 Link: <https://music-player-nine-lake.vercel.app/>

- Built a responsive web-based music player with seamless audio control and dynamic UI using HTML, CSS, and JavaScript.
- Implemented features like play/pause, next/previous track, and real-time progress tracking.
- Designed an intuitive interface for smooth user interaction and experience across devices.

**SOFT SKILLS** - Problem-Solving, Team Collaboration, Adaptability, Attention to Detail, Communication

---

## **CERTIFICATIONS & COURSES**

Full-Stack Web Development – Udemy (4.5+ Stars, 300K+ Students) - by ( Angela Vu )

## **ADDITIONAL DETAILS**

Strong foundation in DSA, DBMS, OOPs, and System Design.

Enthusiastic about problem-solving, backend engineering, and software development

**LANGUAGES** - English, Hindi.
